

Down Duvets & Pillows

SLEEP IN A CLOUD

Down is nature's finest insulator. The same exacting standards we uphold in the production of our beds extend through our complete line of down products. Coupling high quality down with excellent design and expert workmanship, we feel we achieve a product that will add to the warmth and comfort of your sleep environment.

EXPERIENCE THE DUX DIFFERENCE

There are many factors that contribute to the overall quality of a duvet. Low quality duvets are generally filled with more feathers than down, making them heavier and not as warm, often causing them to collapse after two or three years. Our duvets are filled with only the highest quality down. They do also have fewer feathers and are lighter, warmer and puffier and will last longer than low quality duvets.

Our pillow plays an integral role in the way in which you sleep. The right neck support is vital to the proper alignment of your spine. With the purchase of a new bed it is always a good idea to reassess the firmness of your pillows.

>> DUXIANA Classic

A gloriously light and comfortable duvet. The filling is 90% white arctic goose down and 10% small feathers (fill power 10). Covers in 100% mako cotton.

The filling of Classic pillows is 60% white arctic goose down and 40% white arctic feathers (fill power 8). The high percentage of feathers provides a firm base and optimal support for heads and necks.
